

Tuna Bostancıbaşı

Mobile & Cross-Platform Developer · React Native / Expo · Full-stack

Konya, Türkiye · +90 538 722 72 58 · bostancibasituna58@gmail.com · tunabostancibasi.com · github.com/Tunacodin · linkedin.com/in/tuna-bostancibasi

PROFILE

Product-minded React Native & Expo engineer with **5+ years** shipping mobile apps end-to-end — from architecture and state design to EAS builds, code signing, and store releases. I own the full stack: extending a single Supabase backend across **mobile, web (React / Three.js), and desktop (Electron)**, and have delivered production apps across social, fintech, and warehouse-operations domains. I care about fast, resilient UI, clean data flow, and turning ambiguous product ideas into released software.

EXPERIENCE

Divizyon — Community Lead

Open Innovation Platform · Feb 2026 – Present

- Leading a 3-discipline community (digital product, experience design, content production) — running events, sessions and sprint organisations, planning prototype-to-product sprints and coordinating mentors end-to-end.

Füzyonist — Mobile Developer

Multi-disciplinary consulting agency · Oct 2025 – Mar 2026

- Built mobile applications for client MVP and product development projects using React Native.
- Contributed to mobile delivery in cross-functional teams with Agile / iterative methodology.

Phinia Delphi Technology — React Native Intern

İzmir · 2024

- Built features, refactored modules, and fixed bugs in an enterprise automotive mobile codebase.

KodPit Software — Mobile Developer Intern

Denizli · 2023 (4 months)

- Implemented mobile screens and REST API integrations for client projects using React Native.

SELECTED PROJECTS

Sorsana — Social Q&A platform for students

Closed testing · iOS + Android

Lead Mobile Developer

Expo SDK 55 · Zustand · TanStack Query · RHF + Zod · Skia · Supabase

Peer-based question-solving platform where students post questions with images, get AI-augmented explanations, react, and discuss. Architecture, navigation, auth, admin panel, and release pipeline owned end-to-end.

Verona — Management system for an art school

In development · Desktop + Mobile

Full-stack · Mobile + Desktop

Expo Router · React Native · Supabase · Electron · Reanimated · TypeScript

Instructor / student / course scheduling and session-based payment tracking for an art school, moving the studio off paper ledgers. A shared Supabase backend powers both an Expo mobile app and an Electron desktop panel — session billing, instructor contracts, and printable records.

Yalin Depo — Smart warehouse & stock management

In development · Mobile + Web

Full-stack · Mobile + Web

Expo SDK 54 · React Native · Supabase · expo-sqlite · expo-camera · Three.js

Warehouse optimization platform built on lean principles — a real-time 3D warehouse view (Three.js), color-coded shelves, critical-stock alerts, barcode scanning, and consumption analytics that route each part to the right shelf. React Native app + React / Three.js web dashboard on a shared Supabase backend; tracks 2600+ SKUs across 12 shelves.

Tipbox — Blockchain-based product sharing platform

Team project

React Native + Full-stack contributor

React Native · Web3 integration · full-stack contributions

Built React Native screens, integrated Web3 flows, and contributed full-stack functionality alongside the core team.

Savely — Financial goal & social savings app

Closed testing · iOS + Android

Lead Mobile Developer

Expo Router · Supabase · Apple Sign-In · signed Android release

Goal-based savings app with social features. Apple Sign-In auth, Supabase backend, signed and released Android binary.

Wallpaper Collection — Visual discovery app

Closed testing · iOS + Android

Lead Mobile Developer

Expo Router · NativeWind · Expo Image · Bottom Sheet

Visual discovery app with fluid masonry feed, gesture-driven Bottom Sheet, and Expo Image-powered high-performance rendering.

TECHNICAL SKILLS

CORE

React Native 0.83, Expo SDK 55, Expo Router, TypeScript

WEB & DESKTOP

React, Vite, Three.js / react-three-fiber, Electron

UI / ANIMATION

NativeWind, Reanimated, Skia, FlashList, Bottom Sheet

LANGUAGES

TypeScript, JavaScript, C#, Java, Python

EDUCATION

Pamukkale University

B.Sc. Computer Engineering · 2020 – 2025

STATE & FORMS

Zustand, TanStack Query, React Hook Form + Zod

BACKEND

Supabase, Firebase, .NET 6 Web API, REST, JWT, SQLite

DELIVERY

EAS Build, TestFlight, Google Play Console, Code Signing, OTA

LANGUAGES

Turkish — Native · English — B2
